

We all know several students who suffered from scarcity of right guidance either in their early phase of education or at intermediate and upper levels .We are all set to deal with such issues .Here the ultimate beneficiary will be the student and his family who is suffering from the scarcity of a proper guidance, who can register here themselves or will be found by admins or Gyanmtira.

So here it's a four level hierarchy in which a professional or an eligible student can join us as a counselor to the needy students, he has also the option to academically adopt a student or a group of a student of his own choice and to be in touch with them and guide them time to time by available mediums over this platform.

To become a counselor one needs to fulfill some eligibility criteria's fixed by the team of admins. Several resources will also be provide by the admins to the counselors and the volunteers for their proper functioning.

One can also join us as a gyanmtira who can help us to find the needy students from several remote areas. There is no eligibility criteria to become a gyanmtira.
